COMPONENT SOLUTIONS

Who we are

We were founded in 1947 as Maynard Manufacturing Company—a supplier of internal engine and accessory mounting hardware. Over the years, we have expanded and evolved into a leading supplier of high-temperature and high-vibration bolts and studs.

What we do

We develop and manufacture solutions for the most challenging bolted vehicle joints. We work with our customers to understand their application and fastening needs, then we design the proper bolt or stud for their application. Our application and product knowledge combine to enable us to provide superior customer service.

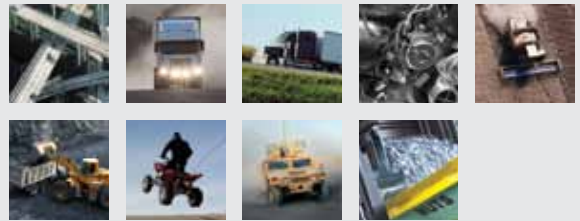

Key Products

Maynard Lockthread Fasteners
Maynard High-Temperature /
High-Vibration Fasteners

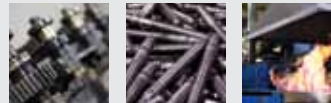

Industries Served

Automotive
Heavy-Duty Truck
Heavy-Duty Trailer
Industrial Engine
Agriculture
Off Highway
Recreational Vehicles
Military and Defense
Industrial Solutions

Core Competencies

Cold Forming
Warm Forming
Thread Rolling
Heat Treating
