COMPONENT SOLUTIONS

## About our Manufacturing Management Program

A rotational two-year program developing future MacLean-Fogg leaders.

### Make a measurable impact early in your career

Contribute to a variety of manufacturing areas in just two years. Diverse cross-functional assignments include:

- Manufacturing Engineering
- Industrial Engineering
- Materials Management
- Quality
- Factory Supervision
- Finance
- HR
- IT Business System Implementation
- Applications Engineering

Accelerate development of your technical skills, business acumen and personal experience through:

- Targeted off-site training sessions developed and facilitated by MacLean-Fogg specialists
- Valuable certification in lean manufacturing
- General business training from expert professionals
- Formal and informal interaction with senior management
- Mentoring and hands-on coaching

## Do You Meet Our Candidate Criteria?

B.S. in Mechanical Engineering, Industrial Engineering, Mechatronics, Accounting, Finance, HR, or IT Business Systems

---

GPA greater than 3.0

---

Strong commitment to a career in manufacturing

---
