MacLean-Fogg
COMPONENT SOLUTIONS

Who We Are

Founded in 1905 as a maker of innovative screw machines, Curtis Screw evolved to be one of the leading manufacturers of precision machined components and assemblies. In 2014, the automotive business from Curtis Screw in our New York and North Carolina facilities became part of MacLean-Fogg Component Solutions.

What We Do

MacLean Curtis supplies precision machined automotive components for powertrain, safety-critical and other automotive applications. Curtis maintains a commitment to modern manufacturing technology, demonstrates a collective talent for creative problem solving in engineering, incorporates stringent quality assurance measures and subscribes to award winning, customer service philosophies.

Key Products

Automotive Transmission Components
Automotive Engine Components
Automotive Steering & Suspension
Components
Fasteners
